

RcppResultSet::add

```
graph LR; A[RcppResultSet::add] --> B[RcppFrame::getColNames]; A --> C[RcppFrame::getTableData];
```

The diagram illustrates a function call from `RcppResultSet::add` to two methods of the `RcppFrame` class. A grey rectangular box on the left contains the text `RcppResultSet::add`. Two blue arrows originate from the right side of this box. The top arrow points to a white rectangular box containing `RcppFrame::getColNames`. The bottom arrow points to another white rectangular box containing `RcppFrame::getTableData`. All boxes have a black border.

RcppFrame::getColNames

RcppFrame::getTableData
